Kama-douma.
Kumo.
Show him how the job works.
He's still an ordinary punk, but he's extra-ordinarily strong.

Chapter 14 : To Me, You Are Necessary.

It was five years ago.

With the codename I had been given,

I was wandering under the guidance of those killers..

...helping with The Organi-zation's jobs.

The man named "Kumo" was, for the most part,

the same as all the others.

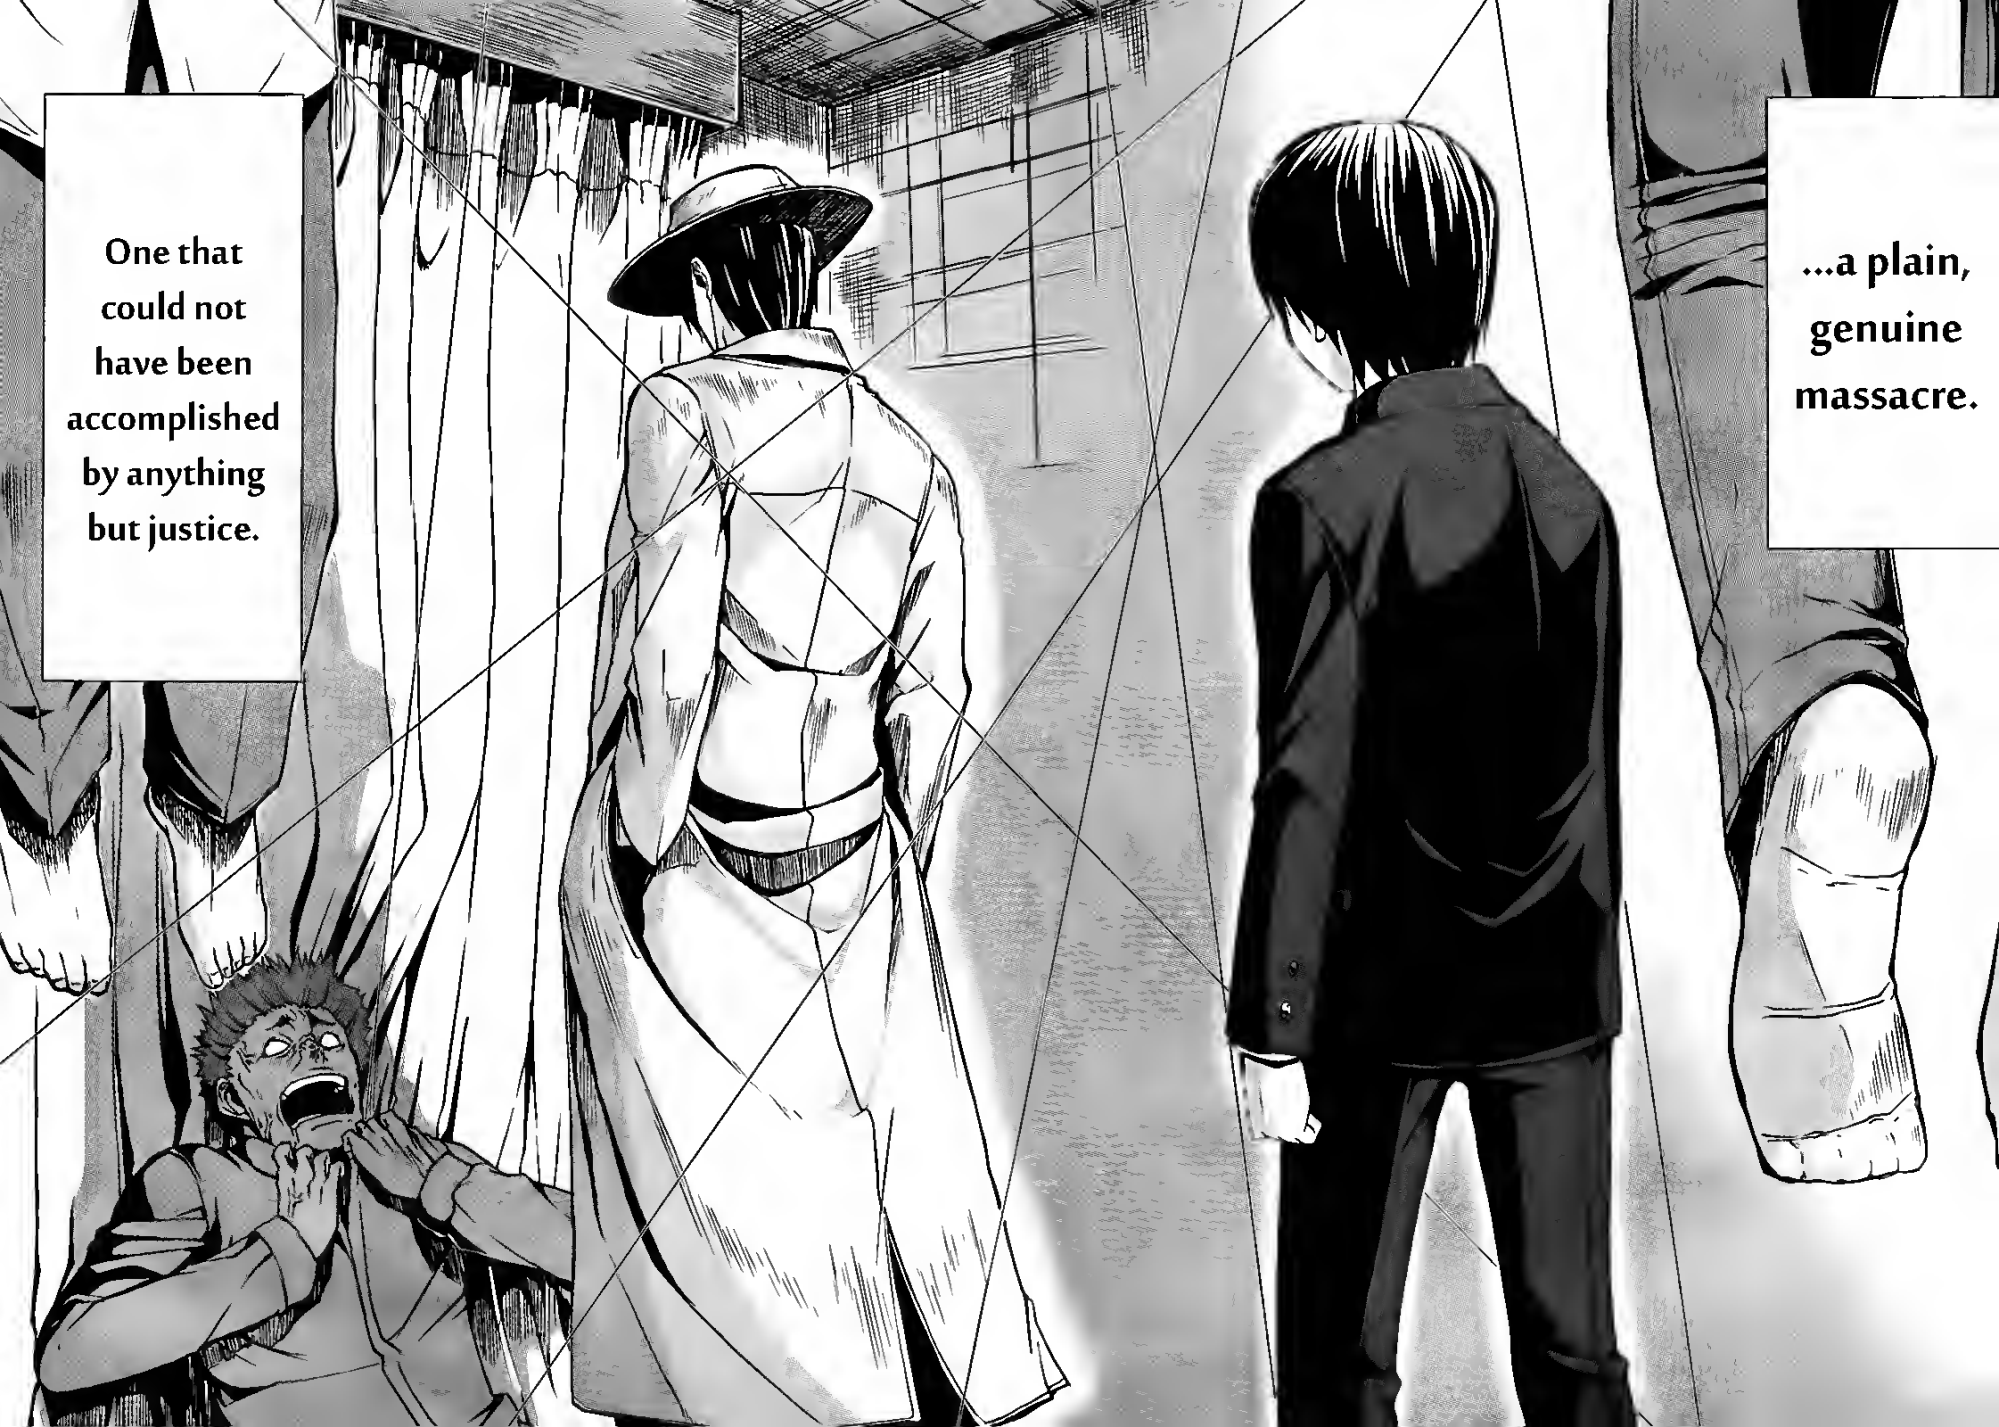
I didn't have any idea about him.

I thought he was just another homicidal maniac.

But soon after...

...had completely changed.
...my mindset...
The stuff I expected to see at the usual homicide scene...
It was a rather insane sight to see
.....

Note: Hibiki is only imagining these scenes. They didn't actually happen.



One that could not have been accomplished by anything but justice.
...a plain, genuine massacre.

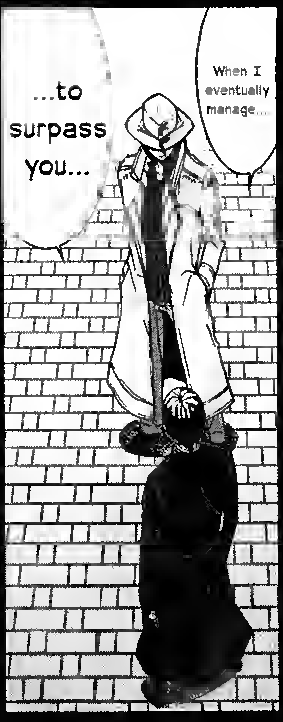
...Rider...
Kahen...
For the first time since my birth...
...I finally realized who I wanted to be.
And since that day...
...I have dedicated my mind and body to being his apprentice.

I helped out with the work and the chores...
...and we shared the dangers together. Everyday food and living too.
We were a team.
I learned many new things.
While I shadowed him,
...If I could've realized it earlier...
...during my childhood...
The thing I earnestly longed for...

...since I first met with him.
Three years had passed...
There is nothing more I can teach you.
From here on, go forge your own path,
Kama-douma.

...sur-
passed
you.
I still
haven't...
Not
yet.
There
is!
There is
no need
for us to
compet
I find that
I've already
realized my
true feelings!
...absolutely
necessary!
To
me, you
are...

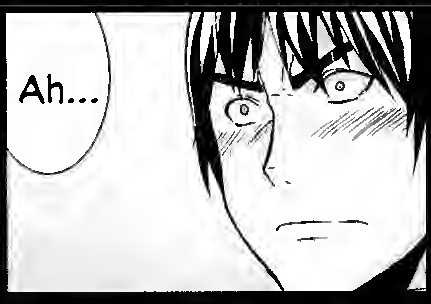
...my love..!
Please accept...



When I eventually manage...
...to surpass you...

...or whether I'm still alive by then.
Well, I suppose that all depends...

.....



Ah...

TL Note: The sign above says "Far East Society"

.....
It's just impossible for Kumo...
...to suffer such a shit defeat by an amateur like you.
Perhaps...
...Those feelings of mine finally reached him, and thus he wanted to entice me...
...You miserably crushed that love of mine...

Wha-

Silence.
I don't want to hear bland excuses

What I want to hear...

...Of course not..!

Those shitty makeshift plans of yours...

Arthro-pods...

...are generally comprised of all the arachnids and the bugs you see each day.

It is the largest taxon in the animal kingdom

There are around 1.1 million species living now,

and the ratio it accounts for in all animals...

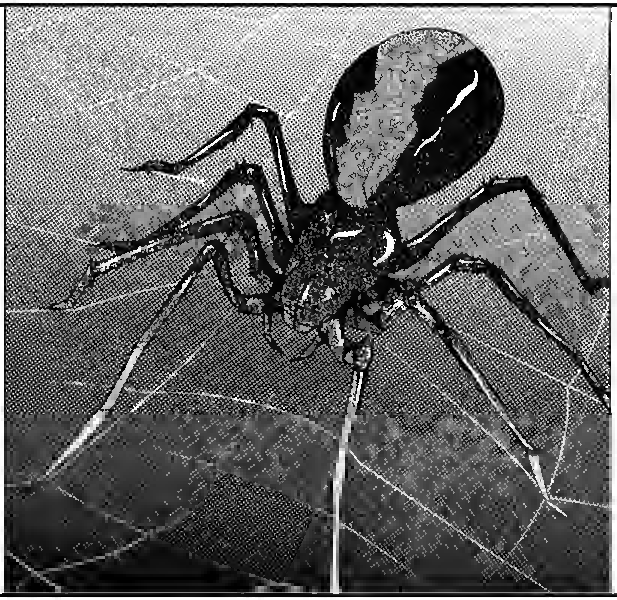
It is the world's most prominent species.

...in reality, is close to *85%*.

The assassins in The Organization have characteristics resembling insects,

and chose a livelihood of killing.

are the result of their natural resemblance to those insects.



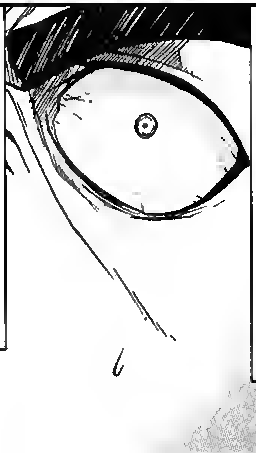
Their techniques, and the "art for the necessity to live," fostered within those several hundred million years of evolution,

The main requirement,

...is not from one's physical strength, ability, or even their experience.

"One's natural talent for killing..."

sacrifice humanity,



is that no matter what, you need to abide by the natural instincts of life,

and then become the insect.
